

Once made to 12 sts round, repeat 12 sts one more time.

Take the starting round (access from the magic ring) and pull it towards the last stitch made. As you pull, you'll see the tip of the shoe pointing up.

To keep this shape, and tip pointing up, thread the needle (with access yarn from magic ring) and wrap around in the back of stitch or two. Tie a knot to hold your work.

Your point of the shoe will stay up and make elf slipper look nice.

Add yarn for the legg on the back loops of R21. *dec1, sc1* x6 to make 12 sts for your legs later. Now you can continue with adding petals to the shoe. (make sure to ch and turn in order to make petals facing right side up)

Reso finished here.

After all six petals are done around shoe, ch1 and turn to work clockwise. Single crochet all of the free front loops left previous round. (your work will look as: *ch1, sc2* around)
